

# Community Bursary Case Study

---

## St Peters Court Adult Learning Club

- Organisation:** St Peters Court Adult Learning Club
- Aim:** St Peters Court Adult Learning Club is based at a sheltered housing complex in Torry and is aimed at those aged between 65-90. The club holds sessions to encourage those in the sheltered housing to live as independently as possible.
- Bursary amount:** £2,000
- Spend:** The bursary has allowed the club to offer computing classes and a cookery course for men only.

The computer course has allowed the users to learn computer basics as well as how to shop online. The group can now confidently carry out their food shopping, as well as browse online. The bursary has also enabled the learning club to have the internet installed in the common room of the complex, for all to use.

The cookery course concentrated on teaching the men how to make balanced healthy meals, to aid their independence.
